

PRESS RELEASE

Courbevoie – January 22, 2026

Bureau Veritas Named Accredited EcoVadis Consulting Partner

Bureau Veritas, a global leader in Testing, Inspection, and Certification services (TIC), has been named as an Accredited Consulting Partner by EcoVadis, the global standard for resilient, sustainable supply chains. Accredited Consulting Partners are formally equipped to help businesses complete sustainability assessments, review scores, and improve Environment, Labor and Human Rights, Ethics, and Sustainable Procurement practices.

[Accredited Consulting Partners](#) are carefully selected based on their experience and expertise and must complete rigorous training on EcoVadis' methodology and assessment process through the [EcoVadis Academy](#). To qualify, partners must demonstrate a deep understanding of local environmental, ethical and human rights regulations and issues, and have completed the EcoVadis assessment for their own business.

*"Becoming an EcoVadis Accredited Consulting Partner reinforces our commitment to enabling businesses to build resilient and responsible supply chains", said **Marc Roussel, Executive Vice President, Urbanization and Assurance at Bureau Veritas**. "Bureau Veritas has a long-standing legacy of helping companies ensure integrity and resilience across global supply chains. Our partnership with EcoVadis further reinforces our commitment to guiding businesses toward sustainable transformation and help clients not only meet compliance requirements but also embed sustainability into their procurement strategies and operational frameworks."*

As an Accredited Consulting Partner, Bureau Veritas offers end-to-end support for supply chain sustainability through:

- Assessment Completion & Compliance Readiness – Guiding suppliers and buyers through EcoVadis assessments and sustainability reporting.
- Post-Assessment Review & Strategic Integration – Translating scores into actionable improvement plans for long-term impact.
- Program Launch & Network Engagement – Helping buyers implement sustainability programs across global supplier networks.
- Advanced Value Chain Performance – Driving measurable improvements in responsible sourcing, traceability, and resilience.

Building on its expertise in guiding organizations through sustainability transitions, Bureau Veritas combines compliance, risk management, and transformation strategies to help businesses embed sustainability into their operations and supply chains. This approach includes diagnostics, advisory, performance monitoring, and certification, with a strong emphasis on responsible sourcing, social audits, traceability, and resilience – enabling companies to meet global standards, enhance transparency, and deliver measurable impact.
